

My Order is Placed, Now What?

You've chosen us as a partner, thank you. Here is what you can expect throughout your job.

Design-for-Assembly (DFA) Verification Check

Our engineering teams review every order and create a virtual prototype using our proprietary design-for-assembly verification software

Communication is Key

The key to a successful partnership is communication. Throughout the assembly process, you will receive a number of important communications that may require additional feedback from you. Please be sure to respond in a timely manner to avoid delays.

Communication	Details	Response Needed?
Order Confirmation	Includes your Build # and order details	No, unless changes are needed.
DFA Check Report	Report of any issues found during DFA check.	Yes, provide resolutions to issues.
Engineering Release		No
Exception Report		
Holds	If any holds arise during the assembly process, your Client Service rep. will quickly reach out to resolve the hold.	Yes
